

Everest Fastpitch Covid 19 Protocols

Outdoors. Coaches are required to be masked 100% of the time. No exceptions. Coaching/Teaching/Talking ... your mask needs to be on and worn properly over the nose.

During games and practices masks are required when ...

- kids are stretching together
- kids are waiting together in the outfield in a pod to catch fly balls
- kids are waiting in line in a group to hit balls
- kids are in dugouts
- kids are participating in team breakdowns
- kids are participating in a pre/post-game talk
- kids are arriving and leaving the field to go home

Equipment

- No sharing of equipment (Helmets, gloves, catchers gear etc..)
- Catchers gear should be sanitized after each game
- Helmets and bats should be assigned for the whole season if possible.

Parents must be fully masked at all times at all games and practices. We are asking parents not stay at the field during practice if possible. (we understand this might not work for our youngest players) Parents at practice or games should not congregate together. They should remain at least 6 ft apart from anyone that does not live in their home. During games, please bring your own lawn chair to sit in and use the first and third base sides of the field to spread out. Fans can also sit in the outfield area just outside of the fence.
